Introduction

The term EAL is used when referring to students where their primary language at home is not English. This policy sets out the school's aims, objectives and strategies for meeting the needs and celebrating the skills of EAL students and helping them to achieve the highest possible standards.

Rationale

The Ridgeway School and Sixth Form College believes that all students should have the opportunity to acquire a fluent and flexible use of the English language. Students who are learning to use English as an additional language will be provided with the appropriate teaching and learning materials to aid and support their learning outcomes. This will enable them to achieve while at The Ridgeway School and Sixth Form College and during subsequent studies.

Aims

The aims of this policy are:

- To ensure that we meet the full range of needs of students who are learning English as an additional language, including fully meeting the requirements of the Race Relations Act 1976.
- To welcome and integrate into the school both socially and academically all new EAL students from overseas, and value the cultural, linguistic and educational experiences that they bring to the school.
- To carefully assess the skills and needs of EAL students and provide appropriately for them throughout their time at the school.
- To enable EAL students to become confident and fluent in speaking and listening, reading and writing in English to help them fulfil their academic potential.
- To support EAL students in establishing positive relationships with both peers and adults.
- To involve and enlist parental support in improving their child/children's attainment.
- To monitor students' progress systematically and use the data in order to make clear decisions about classroom management and curriculum planning.
- To maintain students' self-esteem and confidence by acknowledging and giving status to their skills in their own languages.
